COMPANY PROFILE

Al Amana Fibre Glass Factory LLC was incorporated in 2004 for the manufacture of various fibre glass products. Our Factory is one of the leading manufacturers of Fibre Glass Products. Our well-trained technicians with an advanced technology provide our clients with a very high quality product and it is as per British Standard (BS) 4994.

Our regular clientele includes Rulers Palace, Government sectors with Federal Ministry, Sharjah Municipality etc. Also our participation in big sewerage projects is due to the technically qualified manpower to the satisfaction of Consultants and Contractors. Our Factory is also in the field of GRP LINING of superior and long term performance with high quality durable materials.

Our main target is to keep our customers always satisfied and to provide them the best possible service.
